

# Thermal Pane Acrylic Display Tanks

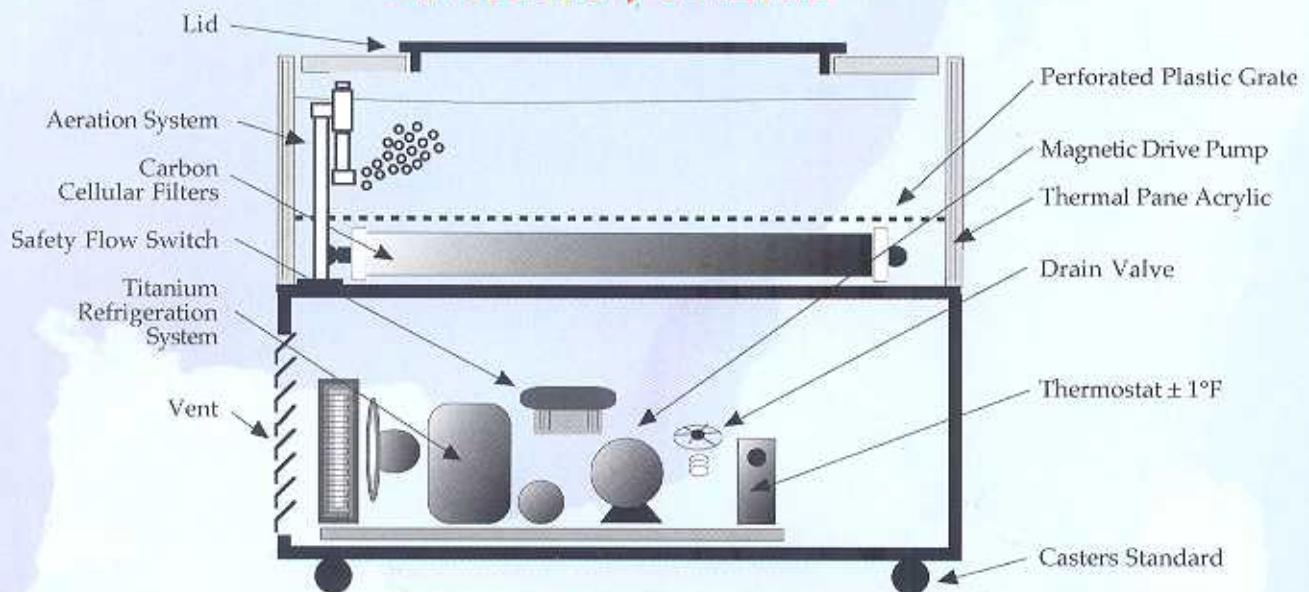

- Biological Filter • Aeration System
- Seawater Pump • Solid Wood Cabinet
- Titanium Refrigeration System
- No Fog Thermal Pane Acrylic Tank
- Casters • Safety Cut-off Switch

## DIMENSIONS

The chilling coils are made of titanium, completely non-corrosive in seawater. Biological reduction of Ammonia occurs on the cellular filters. These filters are filled with activated carbon and are easily removed for cleaning.

## Standard Features

## Complete Seawater System

State of the art titanium seawater chiller, magnetic drive pump, venturi aeration and thermostat. Cellular filters provide biological and carbon filtration. Water remains sparkling clear. Thermostat is included. Tank is thermal pane acrylic with rounded front corners. Standard cabinet is medium oak. Custom colors/finishes available. Vent, lid, hinged doors and casters are standard. Included are ammonia test kit, salt, instruction manual. Ready for immediate use.
